

## 30 % Government Discount Made in the U.S.A.

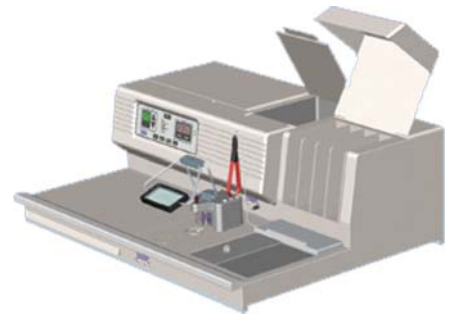

### ATP™ Tissue Processor

- Single rotary valve reduces carryover
- Totally enclosed reagent/pneumatic system eliminates noxious vapors
- 8" Color LCD touch-screen controller improves operator viewing & efficiency
- Unique "Bubbling" technology maximizes fluid exchange
- Innovative design minimizes downtime and reduces services costs
- Multilingual / Country Operations
- Automatic paraffin cleaning functions

### TEC™ Tissue Embedding Center

- Efficient single-module design requires less space
- Low work surface reduces user fatigue
- Programmable starting times and ensures dependability & performance
- Separate cold plate module available

### 2563 Minotome PLUS™ Cryostat

- Motorized specimen advance & retract for speed and convenience
- Microtome positioned for the standing technician
- Automatic & manual defrost modes
- Intuitive & glove-friendly control panel

### Flotation Work Stations

- Magnetic non-contact switch function for years flawlessly
- Microprocessor-controlled heating, amb. to 65° C
- Flat membrane switches for safety & simplicity
- Fluorescent white lighting, positioned for improved tissue viewing without glare
- Heat-resistant plastic housing maintains cosmetic appearance
- Removable glass dish for easy cleaning
- 2" x 5" Convection Slide Dryer & 2" x 2" HISTO/Orientator™ for eliminating wrinkles

### Paraffin Dispenser

- **Large Capacity** - 6.25 gallon reservoir to meet your liquid paraffin requirements
- **Convenience** - High spigot positioning accommodates a variety of large vessels
- **Microprocessor Controlled** - Accurate temperature control and uniformity
- **Clear Lexan Lid** - Permits easy monitoring and refilling of paraffin level
- **Security** - Advanced software & mechanical devices assure unparalleled safety

### SHUR/Wave™ Laboratory Microwave

- **SAME DAY DIAGNOSIS!**
- Maintain uncompromised morphology and antigenicity
- Save on exposure, use and disposal of reagents
- Obtain superior sectioning characteristics
- Dramatically reduce processing time
- Lower operating costs
